THEN AND NOW – 50 years later.

We want to know you better.

**What is your life story from Grade 1 to NOW?**

Have you ever spent time thinking about your world views? What are they? Why do you hold those views? What about your childhood or youth influenced those views? How have your world views influenced who you are today? Your friends at the reunion would love to hear about your journey. We are offering 3 minute opportunities for you to read or speak to this question, to share how you have evolved from that little kid (MK or other) to who you are 50 years later.

**Are you willing to give it a try?** Eight of the planning committee have already done a trial run and found it to be very enjoyable, both in sharing and in listening to stories and insights of others. One person shared insights on how the beauty of PNG influenced their decision to set aside some of their land as a preserve; others related experiences with health issues, hobbies, and spiritual growth; another shared experiences on homesickness and personal social issues.

This opportunity has been developed by Fred Brandt and Dawn (Daechsel) McLean, and is based on, and grows out of, some of the insights Ruth van Reken shared with us during the last couple of retreats.

For more insight and information on how to prepare for and be involved with this opportunity, please follow this link: [MK Nexus A Conversation with Friends](#)

**Please contact either Fred [clrkog1950@gmail.com](mailto:clrkog1950@gmail.com) or Dawn [d.daechsel@telus.net](mailto:d.daechsel@telus.net) with any questions you may have and plan to be a part of "conversations from the heart among trusted friends!"**

**Remembrance Service**

Once again, a Saturday evening of

***Remembering Those We Love***

Please be thinking about who you would like to include. Gather information on their years of life, brief highlights of their service in PNG and a picture or two of your loved one.

A family picture would also be helpful for the PowerPoint presentation. Please submit your information to Les Walck [lwalck748@gmail.com](mailto:lwalck748@gmail.com) by September 15<sup>th</sup>.

### **STORIES FROM TWO OF OUR REUNION PLANNING TEAM**

## **MEMBERS**

### **GRACE (SENFF) PAYNE**

- 1. Where do you live?** I live in Lakeway Texas which is about 20 miles west of Austin.
- 2. What kind of work did you do?** Currently, I am the bookkeeper/accountant for our rental property business in Salt Lake City and am executor for my uncle's estate. In the past, I worked for the IRS as an internal auditor, and prior to that as a pricing analyst for a defense contractor called Tracor Aerospace. I met my husband Jay at Tracor and we have three children. After our second child was born, I held various volunteer positions - I was auditor and later treasurer for our neighborhood association, and treasurer for our middle school and high school PTOs (parent teacher organizations).
- 3. What did your parents do?** My father served as the circuit missionary in Raipinka and Kainantu from 1964 until 1993 and then taught at Ogelbeng Seminary near Mt Hagen until their retirement in 1997. He was also head of Continuing Education for the Lutheran church for many years. My mom was the bookkeeper, typist, women's work leader, first aid person, support person and host to many travelers up and down the highland's highway. She washed and ironed a lot of sheets. After they retired in 1997, they went back to Ogelbeng a couple times as volunteers. In retirement, they settled back in the Stonewall Texas area where Mom grew up and were able to reconnect with family again after 33 years. They were very active in their church as well as in their community, conducting a Bible Study among neighbors, etc.
- 4. What schools did you attend?** First through 3rd grade, I went to a primary school in Kainantu. 4th through 6th grade I attended KLS at Wau. 7th through 12th grades I attended Ukarumpa High School, which was close to our home at Raipinka, allowing me to go home on weekends. For college, I got my BA in Marketing from Texas Lutheran College in Seguin, Texas and later took accounting classes and passed the CPA exam. I attended one semester of college in Heidelberg, Germany in 1983. I was able to reconnect with several German missionary families and KLS friends while in Germany.
- 5. What is your role on the team?** I am the back-up for Tim Johnson on the Communications committee and sometimes help lead Zoom discussions, as well as provide feedback at committee meetings.
- 6. Share something that had a big impact on your life:** I think boarding school at KLS had the biggest impact on my life. It was a mixed bag of great experiences, yet there was homesickness in the early years. The adventures were spectacular - crashed bomber, gold

mine, gold dredges, hot springs, Mt Kainai, Bulolo swimming pool. I loved sewing on Saturday morning - making hats, dolls, - so many fun things. I became independent (I think we all did because we had to fend for ourselves in that environment) and I think that helped me later in life with making my own decisions. I also learned to speak German at KLS and that has been useful throughout life. I've discovered in life that the toughest or worst things that happen to me end up being helpful in molding me into a better person and growing me in my faith.

1. 1971 - Tanya, Grace, Marie, Miriam and Paul Senff at the Kainantu airport, returning from furlough.
2. The Payne family: Matthew, Grace, Jay, Bailey, and Ryan

### Kay (Edwards) Horntvedt

**My experience in PNG** began in 1966 at the age of 11. We moved to PNG from North Dakota where my dad, Byron (known as Mike) Edwards was a pastor of three rural churches and my siblings and I attended school at White Shield on the Fort Berthold Indian Reservation. I struggled to adjust to the many changes. In the 6 years that we lived in PNG I changed schools 7 times. From White Shield to Primary A in Madang, to KLS, to St Peters, to Ukarumpa, to St Peters and back to the US at age 17 in 1972. In 2003, I did some counseling, read the book "If You Want to Walk on Water, You Have to Get Out of the Boat" and took up flying lessons as my husband Wayne was getting back into it and I wanted to be able to land the plane if something happened. Life interfered and I have not kept up with it but it was an exciting adventure. My husband and I returned to PNG in 2003 and visited Madang, Yagaum, Baitabug, Amron, and Nagada. He wanted to see where I grew up. We are currently planning a trip back to PNG in October to visit with an exchange

student who stayed with us in 1999 in our home and we have supported him and his family of 3 children.

**I went to UND at Grand Forks** and graduated with a BSN in Nursing. I worked in surgery for 35 years but left nursing early in 2012 due to health issues, grandkids and aging parents. My husband, Wayne, and I moved from Greenfield to Alexandria in 2014 to help with my parents but we have worn a path to the cities and back helping with grandkids and attending their events. We are blessed with 8 grandchildren ranging in age from 3 to 17. We recently bought a second place in Monticello to avoid living out of a suitcase - not sure if that really helped? I am the seamstress for the family and do lots of sewing projects as well as taking care of a large garden, biking, swimming, tennis, and cross-country skiing on the lake in the winter.

My mom, Lucile, was a piano teacher, led circle and other groups at the church in support of my father Byron (Mike) Edwards as a Lutheran pastor in the US before they moved to PNG. In PNG, dad taught classes at Baitabug for the first few years and then became the main pastor at Memorial Lutheran in Madang where mom played organ for church plus many other duties.

**I am on the Program Committee** for the PNG reunion. I have been working on setting up one of the speakers for the reunion, Jared Diamond. I am also planning the ice breaker game for the first evening of the reunion and may help with piano accompaniment for the services.

My husband and I will both attend the reunion this year so I am looking forward to the fun, memories and camaraderie of meeting with many of you at the reunion.

### **"Wokabaut Wantaim Wantoks"**

Tentatively dated for 7-21 September, 2025.

Prof Weiblen is a plant and microbial biologist, studying the binatang (insects) of PNG, and training local students and professionals in research skills.

George travels to PNG multiple times each year. He has finalized plans for his proposed guided Wokabaut with members of our group interested in joining him in a two-week excursion to Port Moresby, Madang, Nagada, Amele, Baitabag, and Middle Ramu. He plans to introduce participants to the work of the Binatang Center in Madang and its outposts in rural communities. Travelers will take a boat and walk to the communities where they will engage with current efforts in search of sustainable livelihoods and healthy forests.

George plans that our wantoks will share their experiences during his session at our October reunion. Also, George is planning on testing a new satellite internet option that should allow their Wokabaut team to deliver a live and recorded daily update from the field. Wantoks could either join on Zoom to interact with them, or watch it later. Details are pending, so if you want to

receive information about how to access the Zoom email Dianne Tuff at [dianneupfront@gmail.com](mailto:dianneupfront@gmail.com).

Upon returning from a PNG 'bush trip' early this year, George learned that his USAID proposal was paused by the current US administration. Support from wantoks could be critical in sustaining his humanitarian and environmental work in PNG.

We have decided our reunion donation from the Sunday service collection and other possible fund-raising will be given to George for the Binatang Center's work. If you are not attending the reunion but would like to support the Binatang Center's work, please send an email to Dianne Tuff at [dianneupfront@gmail.com](mailto:dianneupfront@gmail.com) and she will let you know how to do that.

George has created a form for folks to indicate level of interest in this opportunity, and to ask questions. [Click here to access the form](#) George's recent photos, video and more information about the Wokabaut can be viewed [here](#).

You can contact Professor Weiblen at his email: [gweiblen@umn.edu](mailto:gweiblen@umn.edu)
